

The EXTRA loft ladder has got single sealing and hatch thickness 46 mm . EXTRA loft ladder model is ideally suited to conditions where the attic is insulated and does not require additional thermal insulation. This ladder is equipped with non-slip feet, which perfectly adhere to the ground and prevent scratches on the floor surface. Our non-slip feet included in EXTRA loft ladder provide an aesthetic finish for the ladder after cutting. To increase security and for comfortable use our EXTRA loft ladder is also equipped with stable and durable handrail. In the interest of user convenience, the handrail has been designed in such a way that it can be mounted on the left or right side depending on customer preferences. The excellent quality of materials used for the production of stairs and attention to every details of finish cause that the stairs will satisfy even the most demanding customers. The maximum load during use is up to 160 kg .
